

Monday 3rd June – DAY 1

Meeting time and location are 7:45 a.m. at the Blue Lion statue next to the 'Stalingrad' stop (tramway A)

Topic of the day: Ecology and society: frontiers and boundaries

- Introduction - Eric Villenave
- Students' presentation
- Environmental studies: crossing frontiers while respecting boundaries - Pieter Leroy

Lunch break

- Beyond nature and culture: crossing boundaries of social-ecological systems - Jelle Behagel
- Opening Round Table
- Wine tasting at the hotel

Tuesday 4th June – DAY 2

Field trip among Ciron Valley and winery

- Gregory Gambetta, Marie-Hélène Dévier and Alexis Ducouso

Wednesday 5th June – DAY 3

Half-day topic: Issues in fisheries (law, economics and politics)

- The ocean and its resources, a parallel with climate change: the gap between global issues and local responses - Yves Henocque
- Frontier politics in cod sea fisheries - Caitriona Carter
- Ecoviability boundaries for fisheries management and resilience - Luc Doyen
- Round table about fisheries

Lunch break

Half-day topic: Human and ecological migrations

- Climate Change and Climate Change Law: pathways and new perspectives - Marta Torre-Schaub
- Environmental change, forced displacement and immobility - Pierre Ozer
- Another brick "against" the wall: migration as an evolutionary rescue - Antoine Kremer
- Round table about migrations
- Bordeaux city center tour

Program of the week

Thursday 6th June - DAY 4

Half-day topic: Coastline and submersion, climate change and pollutant transfers

- Coastal erosion and storm-induced flooding - Bruno Castelle and Xavier Bertin
- How can non-target screening techniques support environmental risk assessment and chemicals managements: the NORMAN approach - Jaroslav Slobodnik

Lunch Break

- Groundwater pollution - Emmanuelle Augeraud Veron

Half-day topic: Atmospheric frontiers

- Managing air pollution or how to deal with a transboundary environmental stake - Laurence Rouil
- Indoor and atmospheric environments: interaction, similarities and differences - Coralie Schoemaeker
- Round table, debate about air

Friday 7th June - DAY 5

Half-day topic: global changes, local changes

- Climate change impacts on grapevine. How to develop future adaptation strategies taking into account producers and stakeholders? - Inaki Garcia de Cortazar Aauri
- Adapting to climate change on New-Aquitaine coastline: a story of boundary-work? - Nicolas Rocle
- Monitoring approach, spatial patterns and conservation priorities for the Last Forest Wildlands - Ilona Zhuravleva

Lunch break

- Report of student works
- Back in Bordeaux (place Stalingrad) around 6 p.m.
